45th ANNUAL HIKE AGAINST HUNGER MEMORIAL BOULEVARD CHRISTIAN CHURCH APRIL 27, 2019 SPONSOR SHEET

Our goal this year is to raise \$12,000 for a project in Puerto Rico called Programa Edifiquemos (literally means "let's build"). This would provide building materials for 6 homes being repaired from Hurricanes Irma and Maria.

Programa Edifiquemos utilizes a combination of local volunteers, teams from the US mainland, and contract labor to complete repairs.

This would provide direct benefit for 12 - 25 individuals, as well as a collective benefit for the communities in which these individuals reside. Restoring homes gives stability to families that have experienced trauma and has direct health benefits for residents by providing a secure and sanitary living environment protected from the elements.

This benefits not only the homeowners, but the entire community as well. By enabling families to remain in their neighborhoods, recovery encourages community cohesion.

Households selected for assistance are among the most vulnerable in the community, including children, elderly, and individuals with disabilities and households living below the poverty line.

The estimated number of homes needing repair have ranged from 150,000 to more than 500,000. The needs are enormous and your generous support will be appreciated.
